

## DEVELOPMENT PLANNING PROCESS

The flow chart above shows the planning process for zoning and subdivision projects in the City of Red Wing. Please also see the City of Red Wing Development Construction Process flow chart. The Red Wing Planning Department handles all zoning and subdivision applications for the City of Red Wing and should be contacted to discuss a potential project.

Once an application is accepted, the typical review period for zoning applications and small subdivision applications is less than 30 days; however, large and/or complicated projects and plats may take longer.
